- Organic products from the list of fruits above are usually produced every crop, provided there is sufficient quantity requested. Availability needs to be planned each year at crop time and quantities need to be contracted to ensure supply.
- Supply and availability are always strictly subject to proper self-supply and receipt of suitable raw material.

Since 1923

Exquisite fruit and excellent fruit enjoyment – this is what **Iprona Hengersberg KG** has stood for since 1923. The passion and expertise of the family business is reflected in an attractive variety of products: be it delicious drinks for the retail trade or the finest fruit products for industry.

Acting responsibly involves far more than just a commitment to the highest product quality. It also includes dealing with customers, employees and, last but not least, the environment.
