Product list

Juice concentrates

Clear or cloudy, standardised, max 65° BX

Application: juices, drinks, fruit preparations, confectionery, ice cream, fruit jellies

Freeze concentrates

Clear or cloudy, max 40° BX

High-quality products without heat application during the concentration process. Benefits: optimally sensorial parameters like colour, flavour and taste, juices reconstituted from freeze concentrates offer an exact sensory match to an NFC juice, reduced transport costs and lower storage costs

Application: ice cream, drinks, flavours, syrups and others

Pulp concentrates

With or without fruit pieces and seeds, max. 55° BX

Application: jams, fruit preparations for yoghurt, ice cream, fruit jellies, confectionery

Puree concentrates

With or without seed, max 32° BX

Application: jams, fruit preparations for yoghurt, ice cream, fruit jellies, confectionery

Instant powders

Our all-in-one solution powders: ready to drink after dilution with water, natural fruit content, microbiological stability, standardised taste and flavour profile

Application: refreshing drinks, hot beverages, alcopops and tea beverages

Health and Nutrition: fibre drinks, slimming drinks, collagen drinks

Fruit powders

Spray-dried fruit juice concentrates and fruit extracts with maltodextrin as carrier

Application: fruit filling for bakery products, ice cream, desserts, instant drinks, fruit jellies and other confectionery products

Infusions

Savor infusion perfection with our solvent-free, gentle blends. Carefully processed and boasting a clean label, each sip is a testament to quality and authenticity.

Application: near water drinks, fruit juice-infusion mixes, iced teas, functional drinks, beermix drinks, milk drinks, kombucha

Beverage compounds

Our all-in-one solutions that are tailored to individual customer requirements in collaboration with the development department of iprona. By using our natural and high-quality ingredients (e.g. juice concentrates, purees, extracts and flavours) we create the perfect beverage, together with our customers and partners

Packaging

- Bag in Box (20 litres)
(content 20–25 kg)
- Pail with aseptically filled bag (20 litres)
(content 18–25 kg)
- Iron drum with aseptically filled bag and polybag
(200 litres) (content 180–250 kg)
- Aseptic stainless steel container (800 litres)
(content 800–1,000 kg)
- Tanker
- Pail with polyethylene inner bag
(not aseptic, only for powder)

In collaboration with our R&D department we produce exclusive fruit mixes based on our customer's requests and would like to expand our product range with new fruits.
